Index to volume 23

Kayode, G.O.: Sulfur nutrition of cowpea in the rainforest and savannah regions of Nigeria 1

Sharma, P.K., Verma, T.S. & Gupta, J.P.: Ameliorating effects of phosphorus, lime and animal manure on wheat yield and root cation exchange capacity in degraded Alfisols of North-West Himalayas 7

Van Meirvenne, M., Hofman, G. & Demyttenaere, P.: Spatial variability of N fertilizer application and wheat yield 15

Buresh, R.J., Vlek, P.L.G. & Harmsen, K.: Fate of fertilizer nitrogen applied to wheat under simulated Mediterranean environmental conditions 25

Fertilizer Technology Research

Braithwaite, A.C., Eaton, A.C. & Groom, P.S.: Factors affecting the solubility of phosphate rock residues in 2% citric acid and 2% formic acid 37

Kapusta, E.C., Giroti, R.S. & Parish, D.H.: International Fertilizer Development Center training and technical assistance activities: a review 43

Ssali, H.: Initial and residual effects of nitrogen fertilizers on grain yield of a maize/bean intercrop grown on a Humic Nitosol and the fate and efficiency of the applied nitrogen 63

Uyovbisere, E.O. and Lombin, G.: Response of early maturing maize (*Zea mays*, L) variety to potassium and zinc fertilization in the Nigerian savanna 73

Rajeswara Rao, B.R., Singh, K., Bhattacharya, A.K. and Naqvi, A.A.: Effect of prilled urea and modified urea materials on yield and quality of geranium (*Pelargonium graveolens* L. Her.) 81

Shailaja, S. and Sahrawat, K.L.: Adsorption and desorption of phosphate in some semi-arid tropical Indian Vertisols 87

Smith, S.R. and Hadley, P.: Carbon and nitrogen mineralization characteristics of organic nitrogen fertilizers in a soil-less incubation system 97

Haynes, R.J.: Movement and transformations of fertigated nitrogen below trickle emitters and their effects on pH in the wetted soil volume 105

Fertilizer Technology Research

AL-Kanani, T., MacKenzie, A.F. and Blenkhorn, H.: Volatilization of ammonia from urea-ammonium nitrate solutions as influenced by organic and inorganic additives 113

Shen-Yi Yan, Zhi-Wu Huang and Hui-Jian Zhong: The manufacture and effect of feather complex fertilizer (FCF) 121

Drechsel, P. and Schmall, S.: Mineral deficiencies and fertilization of coastal reforestations in Benin, West Africa 125

Muthuswamy, P., Ranganathan, C.R., Murugappan, V., Santhy, P. and Ramanathan, G.: A mathematical model for predicting the soil nitrogen status under varying fertilizer practices in a continuous cropping sequence 135

Gillespie, A.R. and Pope, P.E.: A comparison of three rock phosphates for use in forest soils 141

Bayrakli, F.: Ammonia volatilization losses from different fertilizers and effect of several urease inhibitors, $CaCl_2$ and phosphogypsum on losses from urea 147

Costanza, V. and Neuman, C.E.: Optimizing the process of forest fertilization as a control system 151

Mendoza, R.E., Canduci, A. and Aprile, C.: Phosphate release from fertilized soils and its effect on the changes of phosphate concentration in soil solution 165

Peña, F. and Torrent, J.: Predicting phosphate sorption in soils of mediterranean regions 173

Fertilizer Technology Research

Naidu, R., Singh, U., Prasad, G., Bain, D.C. and Morrison, R.J.: Evaluation of Fiji phosphate rocks: chemical and mineralogical properties of samples from the Lau group 181

Book review 191
